

Clinic Assistant Training Workshop 2026 (Intermediate Level)

04 & 11 July 2026 (Sat)
12.30pm – 5.00pm

NUHS Tower Block
1E Kent Ridge Road S (119228)

Who should attend: Clinic Assistants

Strengthen your clinical team with this skills-based workshop!

Build on **core clinical skills** in wound care, vaccination, minor procedures, and inhaler techniques. This workshop focuses on practical application, patient education, and recognising when to escalate in the primary care setting.

04 JULY 2026 (SESSION 1)

Simple Wound Dressing

- Involves wound cleansing, appropriate dressings, monitoring for infection signs and educating patients on wound care guidelines.

Assist in Surgical Procedure (Focus on Toilet & Suture, Removal of Stitches)

- Pre-procedure tasks like sterile setup and instrument handling
- Post-procedure responsibilities including instrument disposal and cleaning, stitch removal
- Patient education on wound care practices.

11 JULY 2026 (SESSION 2)

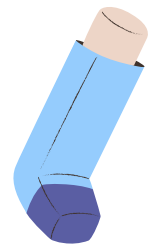

Vaccination Support

- Includes preparing vaccination equipment, ensuring proper vaccine storage and handling, assisting with patient screening, and maintaining vaccination records as required by GPs.

Inhaler and Nebulizer Technique

- Demonstration of correct device usage to patients, providing coaching on technique, setting up and cleaning nebulizers, and identifying respiratory distress for GP referral.

COURSE FEE & FUNDING
